

TRAGIC AFFAIR IN KANSAS.

TWO MEN SHOT TO PIECES BY A MOB.

Killed in a Fight—Murdered His Brother—Horrible Sensation at Lemoor, Ill.

ANTHONY, Kan., April 19.—This morning the city of Anthony was the scene of a most tragic affair. About two months ago a fight occurred in the village of Danville, near this place, between three brothers named Weaver and a man named Shearer. The latter was fatally wounded and the Weaver boys were arrested and hurried away to avoid violence. Last week they were held for trial, but their cases were continued for the term, with bail fixed at \$10,000 each. At 1 o'clock this morning a mob of forty or more armed men surrounded the residence of the Sheriff, where the prisoners were under guard. The guard, hearing them, rushed the prisoners out of the back door and into the basement of the new school building. The Sheriff was taken prisoner by the mob and guarded. The deputies finding it impossible to resist, surrendered. The Weaver brothers defended themselves in their struggle for life with a revolver which they had taken from one of the deputies. They were finally overpowered by the mob and disarmed. Ropes were placed about their necks and preparations were made to hang them to the rafters, but the temple of approaching feet frightened the mob, so they fired fifteen or twenty shots into each man, literally shooting them to pieces and mounting their horses, rode rapidly away. The mother of the boys and the wife of one of them witnessed the entire tragedy.

A Georgia Dynamiter Captured in Texas.

WACO, TEX., April 19.—For several days past the officers of this city have been on the lookout for Abe Jackson, who is charged with the destruction of a house belonging to the noted evangelist Sam Jones, at Cartersville, Ga. Jackson was apprehended yesterday and lodged in jail to await the arrival of officers from Georgia with the necessary requisition papers. Jackson is also charged with being implicated in the blowing up of Judge Collins's large stables near Cartersville. He denies both charges, and says he is being persecuted because of his friendship for the Wild brothers, who have just been acquitted of destroying Judge Collins's property.

A Horrible Sensation.

CHICAGO, April 19.—The people of Lemoor, Ill., and vicinity, were greatly excited this morning by a horrible sensation. It consisted in the finding of the bodies of two women in a quarry pool near Big Bridge, which is about three miles from Lemoor. But meager details were received in the city this morning concerning the affair. All that could be learned was that one of the women was Mrs. Flynn, and the other was an old woman who had been visiting her. The two women disappeared from the home of Mrs. Flynn two weeks ago, and nothing more was heard of them until their bodies were found as described.

Killed in a Fight.

SOMERVILLE, MASS., April 19.—Edward Bagley and Alfred Twoomey were young men who had been like brothers from childhood. Bagley was nineteen years old, and Twoomey is twenty-one. Both worked at the Union Glass Works, and both had widowed mothers dependent upon them for support. Their intimacy continued unbroken until Saturday, when they went to Boston and became intoxicated, and when they returned home in the evening got into a dispute, which they proceeded to settle with a fist fight. Bagley was frequently knocked down by Twoomey, and upon being taken home died of the effects of the beating. After being placed under arrest he said: "He was the best friend I ever had, and this would never have happened but for him."

Killed about a Hog.

CARLETON, O., April 19.—John Morrison, a sewing machine agent, and John Wilson, a stage transporter, quarreled at Washington, in Lucas county, O., Saturday for noon. They were separated, but Wilson swore that he would kill Morrison before sunset. About 7 o'clock in the evening Morrison was walking along the main street of the village when Wilson sprang from an alley and lay in wait, and shot him in the back with a brace. Wilson was once shot, and Morrison was carried home in a dying condition. The quarrel was about a dog belonging to Wilson, which Morrison threatened to shoot.

Opened His Jugular Vein.

NEW YORK, April 19.—John Carpenter who murdered his wife in a Third Avenue saloon at the corner of Twenty-ninth street two years ago and who has been confined to the Tombs under sentence of death, this morning killed himself in his cell by cutting open his jugular vein and the veins in his arm. Carpenter made two unsuccessful attempts to end his life before. He was fifty years of age.

Killed His Brother.

BROOKLYN, N. Y., April 19.—Richard Perry, aged fifty years, shot and killed his brother, Dewitt Perry, N. Y., last night. Shortly before midnight Dewitt returned home intoxicated and pulled Richard out of bed. The latter procured a gun and shot Dewitt. Richard was arrested and placed in jail.

Extensive Conference Game at Boston.

BOSTON, Mass., April 19.—Plymouth White, alias Frank Park, alias Flynn White, one of the most noted confidence men in the country, who was to leave Boston a year ago, left again Saturday of his own accord, having successfully worked a six months' scheme. Last July Ivory Hexton, a retired engineer and a close friend of White, came to Boston and opened a lodging house at 51 Lyman street, renting the place of Police Commissioner Jenks. White engaged a room of him and soon espoused both Hexton and his wife by his courtship and refinement. He talked casually of his immense wealth and Hexton was completely deceived by White, and five days ago lent him \$3033, all his available money, taking as security \$5000 worth of alleged railroad bonds. Through Hexton's influence John W. Tully, a well known engineer, and his sister were induced to loan White \$2500 on a demand note and a promise of \$5000 worth of stock. On Friday White got the securities of Mrs. Hexton on the pretense of wishing to examine them, and was about to leave when Hexton happened to come in. Hexton locked the door and threatened to kill White if he did not return every cent. White laughed at him and got out of

the difficulty by handing Hexton \$2000 cash and two \$1000 notes, made out to White by his brother. Hexton was then so ashamed of having suspected a man who appeared so honorable, that he loaned back \$2000 of the money. Yesterday White failed to put in an appearance and the case was laid before the authorities. Hexton had been swindled out of \$2241 in cash and a five weeks' board bill, besides small sums loaned, and the Tullys lost \$800, which was all the spare money they had.

Suicide of a Young Bride.

CINCINNATI, April 19.—Mrs. Charles Colestaggered into her mother's home in Covington, Ky., last night, and fell on the floor overcome by poison which she had taken just before entering. She died in a few minutes. She had been married but two months. Her mother says she was cruelly treated by her husband.

SHANNON, MISS.

Why Cotton From That Section Goes to New Orleans—News Notes.

SHANNON, Miss., April 17.—This is the 17th of April and very little planting has been done. The farmers are all blue on account of the late season, as it has been raining for several days, and as I write now it is still raining.

The Mobile and Ohio railroad advertises an excursion from all towns along its line to Columbus, Miss., at a very low rate for the round-trip, to hear Sam Jones and Sam Smith preach there, as they open a meeting in Columbus on the 18th. Presiding for money seems to be the order of the day now.

Our Board of Supervisors at their last meeting, agreed to build a jail to cost \$3000, the old one having been burned down recently. So with an increase of State and County tax for 1886, and the low price of cotton, and the cry of hard times, and the gloomy outlook for another crop on account of so much rain, the people are beginning to feel blue.

I notice by the APPEAL that middling cotton is quoted at 8 cents in Memphis, and only 8 1/2-16 cents in New Orleans, which would be the best market. We all would ship our cotton to Memphis if we could get the same rate of freight to Memphis as we do to New Orleans, but the Mobile and Ohio railroad rate to Memphis is so high we cannot ship to that market. I wrote to the Memphis Board of Trade some time since in regard to getting a rate of freight, etc. They appointed a committee to wait on the Mobile and Ohio authorities at Mobile; that is, I saw my letter published in the APPEAL, and where a committee would visit Mobile, etc. But it appears, instead of reducing our freight, they advanced flour and meal 8 cents per barrel. When the Memphis, Birmingham and Atlantic railroad is completed to Memphis it may help us some, for we can do like the people at Enterprise, Miss., several years ago, before the Northern railroad was built through to Enterprise. The Mobile and Ohio discriminated in favor of Meridian, and although the Enterprise merchants and farmers tried to get the Mobile and Ohio railroad to reduce their freight, they paid no attention to their appeals. They started wagon trains to run to Meridian from Enterprise, and after a few weeks the Mobile and Ohio railroad gave them a low rate of freight. We are only ten miles from the new road, while it is fifteen miles from Enterprise to Meridian.

LITERARY NOTES.

Miss Rose Kinkadee, the daughter of the novelist, will contribute an article to the May St. Nicholas, describing Shakespeare's boyhood, with pictures of the poet's home, the school, etc., by Alfred Parsons.

GEN. WILLIAM FARBER SMITH will contribute to the May Magazine of American History his closing paper on "Shiloh," which he describes in critical detail the second day's battle, dissenting materially in his account from that of Gen. Sherman.

Among the Illustrated Articles in the May Century is a description of the new Lick Observatory on Mount Hamilton, near San Francisco, written by Talcott Evans. The first of Mrs. Van Rensselaer's papers on "American Country Drawings," with many suggestive drawings, is in this same number.

This May Century will contain the last paper written by Gen. McClellan for publication. It is a description of the critical time from the second battle of Bull Run to the advance from Washington toward South Mountain and Antietam. On the morning after Gen. McClellan's sudden death the manuscript pages of this unfinished article were found on his table. Gen. McClellan's literary executor, Mr. William C. Prime, furnishes an introduction.

With the coming May number the Magazine of American History enters upon its fourth year under its present able editorial management. Through the judicious broadening of its scope and the substantial value and varied interest of its contents, appealing alike to the student and the general reader, it has achieved a greater marvel in the way of success than that of any other periodical of its character in the world. This speaks well for American scholarship, and the rapidly growing popular desire for historical information.

Many poor people have been unable to get home since last Saturday morning, and those poor fellows have had but little to eat in the interval. The ice still holds firm at Hochelaga.

A Town in Galicia Almost Destroyed by Fire—Many Persons Killed.

VIENNA, April 19.—The town of Stry, in Galicia, has been almost completely destroyed by fire. The number of houses burned is about 600. Many persons were killed. The inhabitants are destitute. A high wind was blowing, and the fire started in several parts of the town about the same time. One hundred persons were killed in one street by falling walls. The town hall, railway station and the telegraph office were destroyed. A large number of wounded were sent to Lemberg, a distance of forty-two miles, where a hospital is crowded with the sufferers. Hundreds of persons are missing. Lack of water rendered aid by the military futile. Money and food are being collected in the surrounding towns for the relief of the sufferers. The fire originated in a small shop and was caused by the falling of a lamp filled with petroleum.

EUROPEAN FINANCES.

Stagnation of the London Stock Exchange—Continental Bourses.

LONDON, April 19.—There was an increased demand for discount during the past week at 1 1/2 for three months and 1 1/4 for six months. The Stock Exchange was dull throughout the week. Saturday there was an absolute stagnation in dealings. The price of American railroad securities improved at the opening, but afterward receded and closed at the weakest quotations of the week. The variations in the price of American railroad securities during the week were nominal.

Flat at Paris.

PARIS, April 19.—Business on the Bourse was quiet throughout the week, with a tendency to flatness. Rentes dropped under the uncertainty of public investment in the new loan. The premium on the new loan after touching 165 fell to 140.

Weak at Berlin.

BERLIN, April 19.—Business on the Bourse during the week was limited, and prices closed weak Saturday.

Dull at Frankfurt.

FRANKFURT, April 19.—Business on the Bourse was dull and prices were weak. The closing quotations were the lowest of the week.

THE LAND BILL.

Not Satisfactory to Kildgassart Tenant Farmers.

DUBLIN, April 19.—At a meeting of the tenant farmers at Kildgassart today the land purchase bill was denounced as simply a measure for the relief of the landlords. It was declared that if the farmers got their holdings on the basis of four years' rental their position would be very little improved, as they are without the necessary capital with which to obtain a start. A resolution was adopted asking the Parnell members of Parliament to oppose the bill. Four hundred tenants of the Earl of Beaconsfield's Kilkenny estate held a meeting today to consider the Earl's offer of a reduction of from 10 to 20 per cent. in rents. The tenants had asked for a reduction of 33 per cent. At today's meeting 335 tenants voted in favor of accepting the Earl's terms.

KILLED AT THE CATHEDRAL.

The Bishop of Madrid Shot by a Priest.

MADRID, April 19.—At 10:30 o'clock yesterday morning, while the Bishop of Madrid was ascending the steps leading to the entrance of the cathedral, he was shot with a revolver by a priest standing at the top of the steps, the ball entering the abdomen. This was followed by another shot which wounded the Bishop on the side, whereupon the wounded man fell upon the steps. The priest then descended the steps and fired still another shot which took effect in the Bishop's thigh. The Bishop was borne in an unconscious condition to a private chamber in the cathedral, where the last sacraments for the dying were administered to him. The priest was arrested. Being Palm Sunday the cathedral was more than usually crowded by worshippers, and when the fearful work of the priest was realized a furious mob followed the carriage in which he was conveyed to prison by gendarmes, whose presence alone prevented his being lynched. The motive for the crime was revenge. The man who shot the Bishop was recently dismissed from the priesthood, and had fruitlessly applied to the Bishop to be reinstated. Queen Christina has inquired as to the Bishop's condition. The Pope has telegraphed his blessing.

LONDON, April 19.—Mr. George Osborn Morgan, Under Colonial Secretary, was questioned in the House of Commons this afternoon in relation

to the Canadian fisheries. He said, in response, that he was not aware that the Dominion Government had complained of aggression by United States fishermen. If any dispute should arise between Canada and the United States over the fisheries the English Government would make every effort to end it with as little friction as possible.
